How to Put Out Household Waste

~Rules when taking your waste to a waste station~

○Adhere to drop-off times.

The collection time varies depending on traffic conditions and the amount of waste collected, but always drop off your waste by 8:00 AM on the day of collection. A further collection will not be made unless there are special circumstances.

○Put items in the designated bags.

Always put items in the waste bags designated by the Local Authorities Greater Niikawa Association. If an item does not fit inside a designated bag, please put a designated ticket on it.
*Designated bags and designated tickets are sold at supermarkets and home centers.

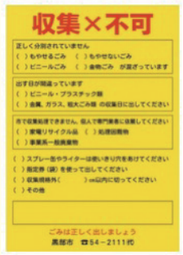

↑ Designated tickets

○Adhere to collection days.

Check the “Household Waste and Recyclable Items Collection Calendar” to make sure the collection date is correct for the waste you want to drop off. Please do not drop waste off other than the night before or on the designated day.

○Drop off your waste at your designated waste station or Recycling drop-off point.

It causes problems when people from outside town leave waste without permission. Please never leave waste at waste stations in other areas. If you don't know where your waste station is, please ask your neighbors or your apartment management company.

↑ Non-collectible sticker

○Separate waste properly.

We cannot collect waste when waste disposal rules have not been followed. When waste does not follow the rules, a “non-collectible sticker” is attached and the waste is left at the waste station. Please drop off your waste after thoroughly checking the separation and disposal rules.

Using Full-time Recycling Drop-off Sites

The city has set up three full-time recycling drop-off sites where you can bring in recyclable materials each day.
Each full-time recycling drop-off sites has different drop-off hours and collected items, so please check the following information before bringing items in. Always follow each instruction, such as washing with water and separating.
